

Name of the Department: The Stride Club  
Academic year: 2019-20  
Name of the program: : Scout and Guide Helmet use awareness program  
Date: 25/12/2019  
Venue: Football ground at Invertis University, Bareilly

**Description:**

Stride Club of Invertis University conducted The Scout and Guide Helmet awareness Program in Invertis University Football ground with the strength of 110 students. The Scout and Guide Helmet Use Awareness Program was organized to address the importance of helmet usage and promote safety among scouts, guides, and the wider community. The program aimed to educate participants about the significance of wearing helmets, particularly while engaging in various activities such as cycling, skating, and other outdoor adventures. The Scout and Guide Helmet Use Awareness Program successfully imparted knowledge and raised awareness about the vital role helmets play in preventing head injuries during outdoor activities. However, continuous efforts and collaborations are needed to ensure a broader impact and instill a culture of safety among participants and the community at large.
