

**Name of the Cell/Department:** CHC, Rajau Paraspar  
**Academic year:** 2022-23  
**Name of the event:** Health awareness program  
**Date:** 21-Nov-2022  
**Venue:** Invertis university  
**Description:** Health awareness program

The Health Awareness Program was initiated to promote and improve public health in our community. This report outlines the program's objectives, activities, achievements, and future recommendations.

The Health Awareness Program was launched [date of initiation] with the primary goal of educating the community about various aspects of health, including nutrition, physical activity, mental health, and disease prevention.

**Objectives:**

The program aimed to achieve the following objectives:

- a. Increase awareness about healthy lifestyle choices.
- b. Promote regular health check-ups and screenings.
- c. Address prevalent health issues within the community.
- d. Encourage the adoption of preventive health measures

The Health Awareness Program has played a crucial role in improving community health awareness. With continued dedication, funding, and strategic planning, we can further enhance its effectiveness and contribute to a healthier and more informed community.
