# ONLINE TEACHING TOOLS AND TECHNOLOGY

## Course Overview

Over the past few years, virtual learning tools have transformed the way educators teach. Not only do these tools simplify lesson plan creation, they also facilitate communication and social interaction between your students.

Distance learning technology continues to grow at a rapid rate and helps teachers like you teach online effectively. Some tools make it easy for you and your students to stay connected, create interactive lessons and build secure campuses.

No matter what you're teaching, there are multiple tools to suit your individual needs.

Virtual learning tools for teachers include a combination of helpful programs and online learning platforms. For example, learning platforms like Zoom or Google Classroom and apps such as Duolingo make learning anywhere an efficient and enjoyable experience.

Both "virtual learning tools" and "distance learning tools" are interchangeable terms.

Not all remote teaching tools are the same, and that's a good thing! Each one has its own unique quality to enhance learning. Some tools handle communication better than others, while games are great for increasing students' understanding of specific subjects. Each tool helps make learning easy and fun.
