Description:

Eco-Drive inside campus of Invertis University was organized on 10 Nov 2022 that began with a beautiful message shared by our Vice Chancellor which motivated everyone to preserve environment by using eco-friendly goods. Various activities were designed for students and faculty members to keep them aware of environmental issues and the ways to deal with them. They made green crowns, organic bird feeders, eco-friendly bags, and posters with slogans on the theme 'Ecosystem Restoration' and planted saplings at their homes.
